~ Welcome Freshmen!! ~

Welcome to Kanuma Higashi High school!

Kanuma Higashi is a wonderful school where students and teachers unite and can work hard towards their goals. This school has fun events such as a school festival, sports competitions, and more! Now, please have a good school life at this school!!

April is when first graders become second grade, and the second to the third. A year passes so quickly.

First graders, how was your first year of high school life? You had a studying camp. Second graders went to the school trip to Okinawa. It was a very memorable time. The second graders are already examinees. We must study hard to attain our goals, mostly entering colleges.

What kind of days did you all have? New students will enter in April, and we think that Kanuma Higashi High School will get more exciting than last year! Let's enjoy the rest of our school life!! And I hope you'll make a lot of memories with your classmates this year, too!!!

It gets very cold in winter because there are many mountains around. The following is the big problem we have in this school. Classrooms and other places don't have enough heaters. Therefore, lots of people get flu easily. We have final exams in February and they are very important, so let's keep disease prevention in mind. You should wash your hands and wear a mask. Let's actively avoid bacteria!
